

GENERAL NOTES:

1. Detail is from **ASTM C-754 Standard Specification for Installation of Steel Framing Members to Receive Screw-Attached Gypsum Panel Products.**
2. Detail intended for interior nonstructural applications.
3. Stud depth, spacing and thickness based on height of wall and design load. Consult **SFIA Technical Guide for Cold-Formed Steel Framing Products for limiting heights.**
4. Tape and finish inside corner with appropriate joint finish system.
5. Gypsum panel type and thickness as required to meet design considerations.

DISCLAIMER: This detail must not be used without a complete evaluation by the owner's design professional to verify validity of the design.
